

Criterion Equipment, a wholly owned subsidiary of Invicta Holdings Limited, is the exclusive distributor in Southern Africa of TCM materials handling equipment, which encompasses forklifts, reach trucks and container handlers.

"With the backing of Invicta, Criterion Equipment has become a leader in the local materials handling sector, providing a wide range of equipment, supported by a technical advisory and repair service" says Brenton Kemp, Managing Director, Criterion Equipment. "Criterion service includes the sale of new and used forklift trucks, long and short term rentals, service and maintenance contracts, as well as the supply of genuine TCM parts".

"The TCM range, with an enviable reputation throughout the world for efficient operation, easy maneuverability, operator safety and comfort, as well as low maintenance requirements, includes new environmentally-friendly Inoma I.C. (internal combustion) engine powered forklift trucks. This counter balanced series has capacities between 1,5 T and 3,5 T and boasts new features that include improved performance, comfort and safety".

This recently launched series has been designed for increased durability. The new TCM steering axle design has been strengthened offering enhanced maneuverability and improved safety.

The optimal positioning of the fan, radiator and muffler has reduced the operating coolant temperature and the upgrading of mechanical components and circuitry has also reduced the operating temperature of hydraulic oil.

A new fork landing mechanism provides a fork lowering speed that decelerates at a height of approximately 150 mm above the ground, enabling accurate placement of the forks into the load fork pockets or pallet.

Important environmental features include new TCM engines which are compliant with the new international stage IIIA emission regulations for diesel powered engines. These new engine management systems provide excellent power, economy and reliability.

TCM machines are available from Criterion Equipment branches, as well dealers and agencies throughout Southern Africa.

**THE TCM RANGE NOW INCLUDES
THE ENVIRONMENTALLY - FRIENDLY
INOMA I.C. FORKLIFT TRUCK**
