Forklift Trucks

CRITERION Equipment participated for the first time this year at Nampo, South Africa's prestigious agricultural show. Criterion's stand, shared with New Holland Agriculture, both part of Invicta Holdings, showcased the TCM range of forklift trucks. The company's service encompasses the sale of new and used forklift trucks, long- and short-term rentals, service and maintenance contracts, as well as the supply of TCM parts. TCM machines are available from a network of Criterion Equipment branches, as well as carefully selected dealers and agencies in most of the major centres throughout Southern Africa and in neighbouring countries.
